

Assembly Instructions

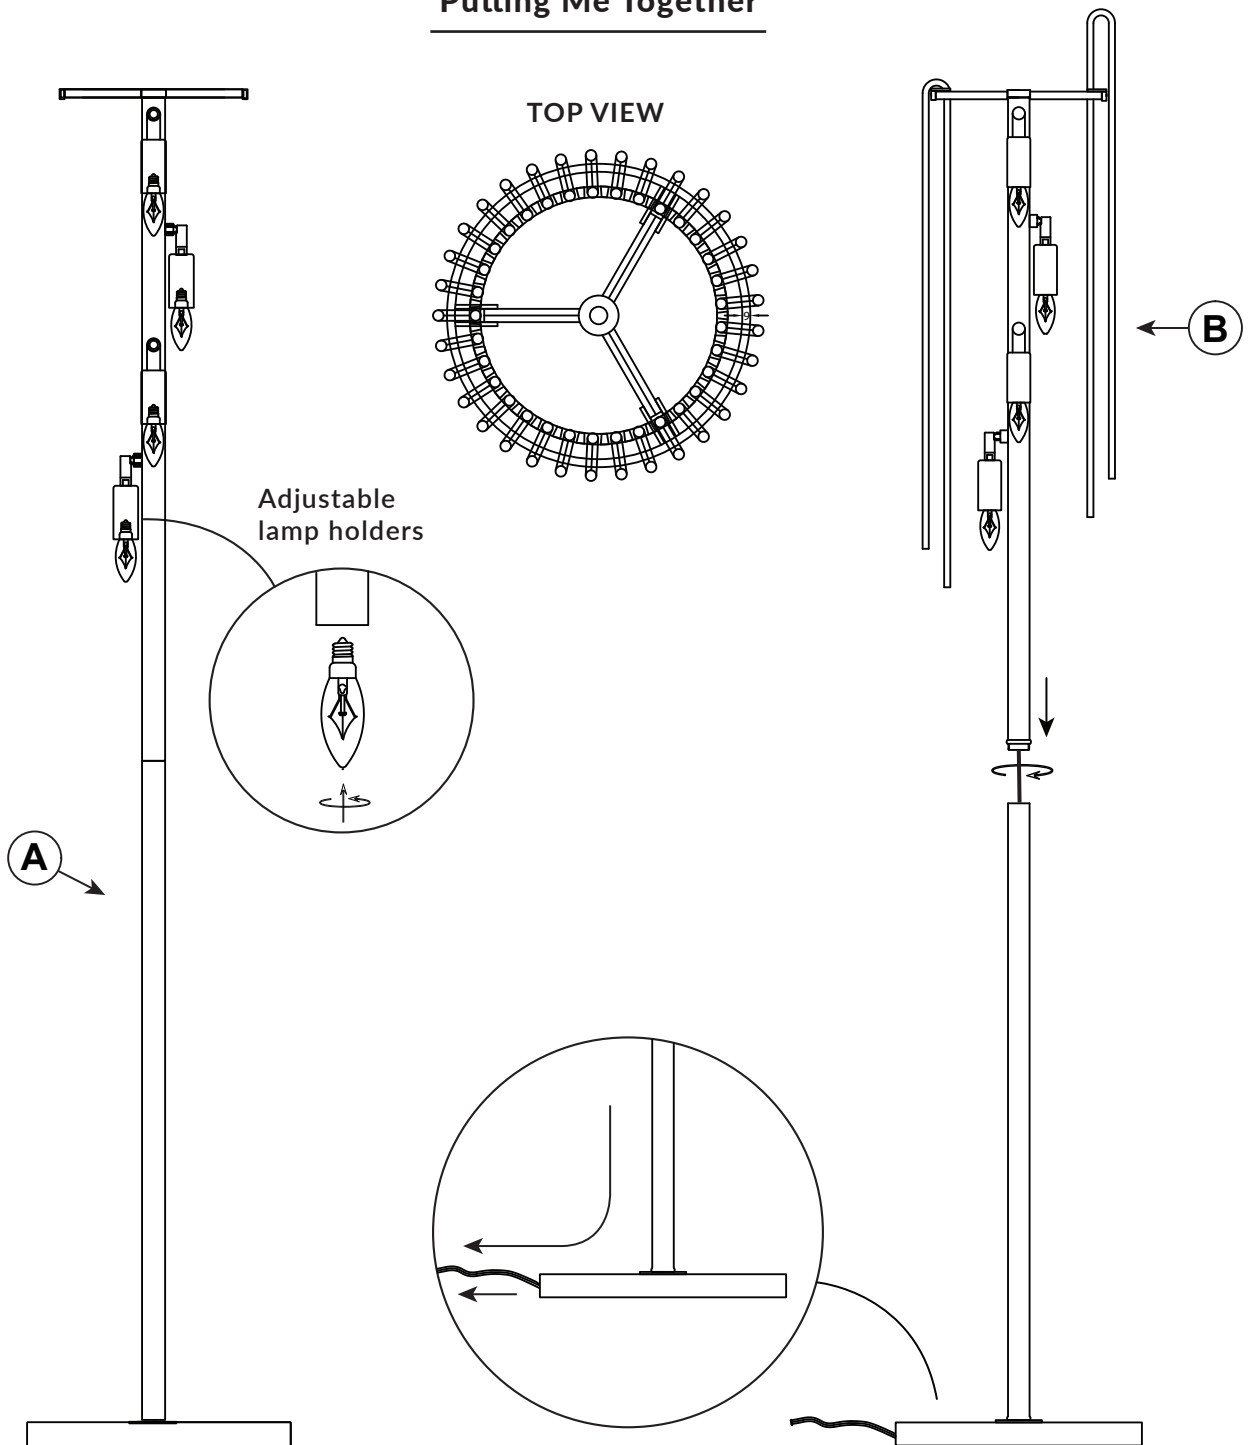

ZARA FLOOR LAMP

Component Checklist

REF	PART	NAME	QTY
A		2 part lamp base	1
B		Glass rod	33

Putting Me Together

- 1 Screw the top section of lamp into lamp base being careful to gently pull excess electrical cord through from the bottom base plate.
- 2 Insert E14 globes into each lamp holder screwing in until they are firm. (globes not included).
NOTE: Make sure there is no power to lamp while inserting or changing globes.
- 3 Unwrap individual glass rods (B) and carefully hang over grooved circular brass frame at top of lamp base (A) with shorter length of rod facing outwards.
- 4 Once glass rod placement is complete, Insert plug into wall socket, turn switch on and enjoy!

220-240V-50Hz E14 Max. 40W

Bulb not included
