

Trak 3 D40 EM Emergency Track Light 3 Circuit

Description

The TRAK-3-EM-D40 LED Emergency Light is an Emergency LED Track Light designed to be a great solution for 3-Circuit track lighting installations. Featuring LED technology providing an energy efficient light source with high output, which is ideal for a range of emergency lighting applications, including retail stores with high ceilings and 3-Circuit track lighting. Featuring a polarity reversal protection switch mode for the battery, making it ideal for jobs which have not been completed yet which require the power to be turned off from the mains. Available in White and Black colour options. Ideal for commercial and interior applications such as shopping centres and hospitality etc.

Specification Features

Input Voltage:	240V AC
