

3CCT OPTIC MODULE DOWNLIGHT SERIES

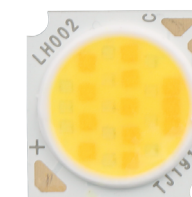

Small scale does not mean small on style!

Versatile with pop in and pop out lamp system. 50mm diameter perfectly match the traditional downlight fixtures. "Tri-colour COB technology" plus "Lens" option always provide variety for indoor lighting application and uniform lighting distribution or accent lighting. Pre-set CCT from 3000k-4000k-5000k will be more convenient for your lighting choices.

Optic strives to deliver complete solutions so that our customers can get products with the best guarantee solutions on the market.

Next generation LED technology

Customized COB chip in tri-color achieves a higher lumens per watt efficacy, resulting in lower power consumption and improved brightness.

Interchangeable frames

Akzo Nobel powder Coating Finish, white or black, delivers a complete solutions from flat, recessed, adjustable, fixed and round etc.

External isolation driver

Adopted imported IC components for good safety performance, smooth Triac dimming, compatible with most leading edge, trailing edge and universal dimmers.

Housing design

Using die-casting aluminum alloy to offer superior heat emission for the whole lamp in 12 watt.

OPTIC 12(3 Colour Change)

General Specifications | UOPTIC12-3CCT

Wattage | 12W

Material | Powder Coated Aluminium

IP | IP40(Room side only)

Warranty | 3 years

LED

Colour Temp | 3000K-4000K-5000K

Lumens | 819lm-870lm-825lm

Beam Angle | 60°

CRI | 90+

Colour Deviation | SDCM<6

Lifetime | >40,000hrs

Driver

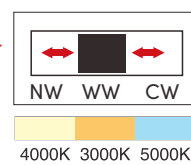

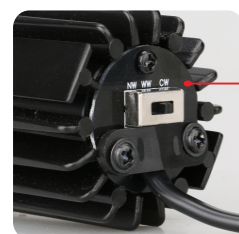

Power Factor | >0.9

Dim Method | Phase cut

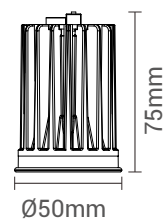

Input Voltage | AC200-240V

Output Voltage | 33-38V

Output Current | 210mA

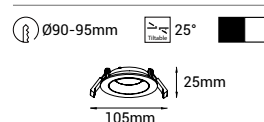

▲ Use the pre-set switch to set color temperature before installation
